Re: Software Development Intern

Dear Hiring Manager,

I am writing this letter about the job posting as a Software Development intern at your company on indeed.com. I am currently a Student at George Brown College and I found a close relation between my skills and your requirements.

I am efficient at multiple programming languages including C#, Python and Java. I also am experienced at using SQL and Mongo DB. Completing various group projects has given me the experience of working on a team which has helped me develop into a good team player. Time management is something I value greatly and make sure to always complete any given task on time. I have the determination and hunger to gain more knowledge and further develop my skills which will be an important asset to your company.

I look forward to the opportunity to meet with you and discuss how I can help your company with my skills and knowledge. Thank you for taking the time to read my letter and considering me as a potential candidate to work at your company. I can be contacted at 416-735-6256 or at dmello.shelton@yahoo.com

Respectfully yours,

Shelton Dmello
